"MONTHLY COUPLES"

The Star learns in a roundabout way that Sam R. Pooser, a youth of a journalistic turn of mind, will shortly begin the publication of a monthly paper in Ocala known as "Monthly Couples."

It is needless to add the Star wishes the youth success.

The Jacksonville Metropolis, speaking of the time and money spent by the board of trade of that city in furthering capitol removal to that city, says: "But it requires a great deal of money to conduct the extensive operations that mark the association's work, and while this will, without doubt, be forthcoming in ample measure, it is no more than fit and proper that the city council and board of county commissioners should, as official bodies, representing the citizens of the city and county, whose interests are involved in this movement, make appropriation of such sums as can be spared from the public treasuries to assist the cause."

SCHOOL MEETING

An important meeting of the trustees of the Ocala sub-school district was held last night in the office of Superintendent Carn, to consider the expediency of lengthening the school term from seven to eight months.

Judge W. S. Bullock was detained at home by the serious illness of his wife. Those present were Trustees Benjamin and Bittinger, Principal Josiah Varn, County Superintendent Carn and B. A. Weathers, chairman of the County Board of Public Instruction.

There was no difference of opinion about the desirability of the eight-month term. All were unanimous on that point, recognizing the fact that good, efficient and permanent school work could only be accomplished through the lengthening of the term, in this way giving every child an opportunity to carefully go over the course of study prescribed, as well as giving the teachers time to thoroughly pass upon each recitation and give individual help and assistance to the pupil in the class room.

Principal Varn made a splendid talk on the demands of the hour for the betterment of Ocala's school. After hearing him there can be no question about his interest in the cause of popular education and his willingness to add duties and responsibilities to his position for the sake of lengthening the term and building up the efficiency and usefulness of the school.

The practical question that confronted the board was how means could be secured to pay the teachers for this extra month's service. Mr. Varn went over the list of incidental expenses, such as pay for janitor, wood, repairs, supplies, etc. He figured it out that with money saved along this line and an additional charge of \$1 a term for each pupil entered, the money could be raised to pay the teachers an additional month's salary, thus creating an eight instead of a seven month term; that the increased benefit secured to the children of the patrons would justify the effort and while no official action was taken by the trustees on the plan suggested by Mr. Varn, because of the absence of Judge W. S. Bullock, all present were of the opinion that the step should be taken.

It was suggested that patrons could pay this \$1 assessment for pupils at the opening of the term or divide it up into four payments of 25 cents per month per pupil. It is estimated that the school will have four hundred pupils, and that every person who is a patron of the school, as well as the friends of popular education, think over this matter, discuss it in their own minds and with their friends, evolving the desired features and benefits it will bring their children and there is no question that they will heartily co-operate with the trustees of the school in advancing its best interests and giving to the school children of Ocala and Marion county the best and most efficient teaching power it ever possessed. It should be the pride and boast of every Ocalan that it has a graded public school that in every particular is the equal of any similar educational institution in the state and a determination on their part that it will be maintained at this high mark of excellence and efficiency, and that no effort or sacrifice on their part shall be lacking to make it the ideal school of the commonwealth, thus ushering in the twentieth century school work that in all after years will prove a blessing to their children, who are largely to receive their mental training within its walls, and, in an educational sense, prepare them for the practical, every-day duties and struggles of life. We should be actuated by the highest, purest and noblest motives and in this spirit stamp the earnestness of our consecration on our children and the reward will be a harvest no money can buy.

STORY OF A SLAVE

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Geo. D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle-working medicine is a God-send to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by Garrett & Gerig, Ocala, and all other druggists.

The Gainesville Sun is authority for the statement that Monticello bought inside of two weeks a carload of pianos. Truly a musical people.

CANCER IS NOT INCURABLE

Time was when Cancer was considered as incurable as leprosy.

Physicians and friends could give little relief or encouragement to one afflicted with this terrible disease. Even now doctors know of no remedy for this fearful malady; while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in caustic, flesh-destroying plasters. The blood must be purified and strengthened, the system relieved of all poisonous, effect-matter before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood. S. S. S. is a purely vegetable remedy; no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you?

Cancer is not always inherited; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may develop from a sore or ulcer on your tongue or other part of your body; a slight bruise or hurt, a little pimple on the eyelid, lip or nose, a small lump on the jaw or breast, a harmless looking wart or mole, and other causes so insignificant as to attract little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it—begin with S. S. S. at once; it will cleanse your blood and prevent the formation of cancerous cells.

Mrs. R. Shirer, La Plata, Mo., writes: "A small pimple came on my jaw about one inch below the ear on the left side of my face. At first it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and eat into the flesh, and gave me intense pain. I tried everything I could hear of, but nothing did me any good. I then began the use of S. S. S., and after taking several bottles the Cancer healed, and there is now no sign of the disease. This was two years ago, and I am still enjoying perfect health."

Send for our special book on Cancer; it contains much information that will interest you; it is free.

Write our physicians about your case, and for any advice or information wanted; they have made a life study of Cancer and all blood diseases. We make no charge whatever for this.

JUDGMENT FOR THE PLAINTIFF

Merchant A. J. S. McKenney of Stanton brought suit against the Florida Southern Railroad Monday, in Justice Alex. Wynne's court, for damage sustained last February by delay to a cargo of potatoes that came over that road, said potatoes being badly decayed by reason of the delay, and when they arrived the season was too far advanced to sell them for seed.

R. A. Burford, attorney for the railroad, filed a number of objections, but when the court heard the evidence, it overruled them and gave a decision for the plaintiff in the sum of \$12 and some cents and the costs.

Lord Allan of Cranberry Hill was sworn in as special constable and opened the court in fine style.

IT SAVED HIS LEG
